-LETTER TO THE OFFICE OF THE PRESIDENT-

-AND THE CABINET OF 28 ANC MINISTERS-

-FINAL DEMAND FOR ACCOUNTABILITY-

-THE NATIONAL PEACE COMMISSION-

INTRODUCTION: RESPONSE TO STATEMENT BY COGTA: ON DIRECTIONS FOR RELIGIOUS GATHERINGS

This Letter serves to confirm that we have received this recent Statement by the Minister of COGTA - Cooperative Governance and Traditional Affairs – **Dr Nokosazana Dlamini Zuma** – on the Directions for Religious Gatherings. This has been issued on the 29th May 2020 in terms of regulation 37 (1) (a) of the Disaster Management Act 2002 (Act Number 57 of 2002.) We recognise she is the same MEC who is in charge of the National Disaster Management Council - and who has 'claimed to have consulted' with all other cabinet ministers before making these decisions to restrict and control the freedom of religion in South Africa. These Regulations are believed to apply to the **Alert Level 3** during a COVID 19 Lockdown.

BACKGROUND HISTORY: This Letter is also the response to an acknowledgement from the Office of the President of our Letter sent on the 28th of April; and that requested the Summary of Findings on both a Zondo Commission and also the Anti-Corruption Tribunal from The National Peace Commission. There is also a need to understand the intentions of the present Government with regard to all this COVID 19 – and the motivation to close down the entire economy: place the entire country under house arrest as well as remove or control the Freedom of an entire country - all in the name of safety and good health. It is of serious concern to the business chambers - the 80% Christian majority - and also all civil society!

THE PRESENT SITUATION: This Letter - with the attachment – serves to provide the President; and that Cabinet of 28 Ministers with what is believed to be the present State of the Nation; and the perception of that is our own Summary of Findings. South Africa is a Covenant Christian Country with 80% of this population and 66% of all people of the African tribes and nations embracing the Abrahamic Families of Faith. It is of concern that Chinese police stations and personnel are being brought into South Africa as well as Cuban doctors when there are unemployed and capable people to deal with the challenges of a COVID 19 Lockdown. The relationship with China - and the trade agreements need to be revealed to us.

THE PRIMARY AIM AND OBJECTIVE: This Letter and the attachment of the Summary of Findings is also 'respectfully' provided to inform the Office of the President and Cabinet of 28 Ministers that it is clear a present Government does not serve either the people or the Almighty God of The Holy Bible and this is evident in The Constitution: The Bill of Rights: and these BRIC Trade Partners are witness to this reality.

The Church will not be regulated or controlled and neither will the Freedom of Religion be removed by a Government that does not recognise the Sovereign Power of Almighty God – nor respect the beliefs and needs of 80% of the entire country. In the absence of the Fear of Almighty God there will never be peace and freedom in this country of many races: tribes: cultures and nations. **We need that Freedom!**

THE NEED FOR SEPARATION OF POWER: This Letter and the attachments and Summary of Findings is a Notice to the Office of the President and the 28 Cabinet Ministers that matters of State and The Church are at all times separate; and the one cannot regulate or control the other. The Civil Government is The First House - and requires the Voice of Truth: Reason and Wisdom from The Second House – and which is established to provide guidance and direction on all social: economic and political matters; and this is wisdom provided by The Word of Almighty God. There are three main Faiths in South Africa that really have their foundations in The Holy Bible and we need the Government that serves the God of the Holy Bible and that bases all decisions on Biblical Principles and Godly Values. These represent Truth: Justice and Righteousness – and every single other Faith or Religion in South Africa will embrace these values.

The Attachment is clear on what is expected of a Godly Civil Government that serves the Almighty God of The Holy Bible – and there are only Ten (10) Principles to achieve Peace and Freedom; and this is not a Christian thing: and neither is it a Jewish dictate or even a Muslim issue – but it does guarantee peace and freedom from tyranny: oppression - and despotic rule. Separation of Power is demanded in all Civil Government – and that applies to the Executive: Legislature and Judiciary and in the absence of this, it is centralised control that was found only in Nineveh: Egypt: Babylon and also in Communist Countries.

THE REAL NEED FOR THE SECOND HOUSE: The Church is represented by the 80% Christian majority as well as more than 75 865 churches and more than 150 different church denominational groups in this country – and no government will be able to regulate or control what is of Almighty God – and it does not have the right: ability or the Supreme Authority. The National Interfaith Council of South Africa or the South African Religious Forum and a CRL Rights Commission and Peer Review Council are Chapter Nine Organs of State - that also want to regulate and control The Church. The Disaster Management Council under the MEC for Cooperative Governance - and Traditional Affairs – COGTA – has no ability: right or even authority to regulate and control an organism of God-fearing: Bible-believing Christians.

The National Peace Commission was established by the South African Christian Chamber of Business – and it is The Second House. The Voice of Truth: Justice: and Righteousness is needed in the country as truth is seldom seen: justice is delayed or denied: and righteousness is never recognised: or rewarded. The Second House is represented by those in the 80% Christian majority and all other religions and it is also represented by Captains of Industry and Mind-Leaders in Commerce: as well as people in all Civil Society that want peace and freedom. People from the informal sector - and even those 550 informal settlements in Kwa Zulu-Natal – are represented in The National Peace Commission that want peace!

THE ROLE OF CIVIL GOVERNMENT: IS TO SERVE: Civil Government is represented by the Executive or President and the 28 Cabinet Ministers that have limited jurisdiction – and their duty is to serve those people in our country. The 1997 Batho Pele – **People First** – Principles were promised to the country in every single one of the 9 provinces and 234 municipalities – and all public servants need to implement these Eleven (11) Service Delivery Principles. The role of Civil Government is to protect and defend all the people - and fulfil the 1955 promises of **The Freedom Charter** – and to uphold that Sanctity of Life.

The National Peace Commission needs clarity and accountability from the President and a Cabinet on:

1. The Summary of Findings on that Zondo Commission – that has cost more than R400 million.
2. The Summary of Findings on the Anti-Corruption Tribunal – that has no oversight committee.
3. The Summary of Findings on the COVID 19 Coronal Virus – and justification for the Lockdown.
4. The Summary of Findings on the Chinese Trade Agreements – and the relationship with them.
5. The Summary of Findings on the Chinese and World Bank Loans – and obligations to all them.
6. The Summary of Findings on all these World Health Organisation Partners: and the intentions.
